Luxriot

Simple yet Powerful

Luxriot VMS Software

Luxriot is an open architecture Video Management System (VMS). Luxriot accepts MJPEG, MPEG4 and H.264 as well as HD and megapixel video streams from Network (IP) cameras, encoders and video capture boards. Luxriot Integrated with over 3000 devices from all major manufacturers including Acti, Arecont Vision, Axis, HikVision, Samsung, Sony, UDP, Vivotek and others. This along with Luxriot client–server architecture allows to build hybrid scalable solutions from a single NVR/DVR to the multiple server system handling thousands of cameras.
Key Features:

- Certified ONVIF Profile S compliancy
- Generic RTSP devices support
- Camera and Server side Multicast support
- Alarm and Action Management
- Easy to use Digital Watermarking
- Supports both Camera side and Software side Video Content Analysis
- Luxriot API/SDK (Client Kit)
- License Plate Recognition
- Java based Web access
- Mobile Applications for Android and iOS devices
- 4K Ready
- Chromecast support

Luxriot VMS Software Features:

- English, German, French, Spanish, Portuese, Italian, Czech, Polish, Russian, Hebrew, Hungarian, Chinese, Danish, Finnish, Greek, Turkish, Estonian, Korean and Japanese localizations
- Open architecture via Luxriot API/SDK (ClientKit)
- License Plate Recognition (add-on product)
- Broadcast Server for web and mobile clients
- Alarm and Action Management

- JPEG, MPEG2, MPEG4, H.264 video compressions
- HTTP, RTP, RTSP, TFTP protocols
- Both ONVIF and PSIA compatible
- Two-way audio for Audio enabled devices
- Support for multiple capture boards for hybrid installations
- Camera and Server side Multicast support
- Support for camera side Video Content Analysis (VCA)

- Video and Audio recording, playback and export
- Full, time-lapse, motion-controlled, scheduler-controlled recording
- SAN and NAS storage support

- Multiple monitors support
- Extensive user/group permissions control and Active Directory support
- User's Action Audit and Journal
- Web access from IE, Firefox, Chrome, Safari browsers
- Single and Multi-View Playback
- Digital Output support for IP cameras and Video Capturing Boards

Latest technologies supported

Functionality Comparison table

	Personal	Basic	Professional	Advanced	Enterprise
Maximum Number of Cameras	1	4	9	16	unlimited
Maximum Number of Remote Connections	1	1	3	5	unlimited
